EarthGift

Herbals

*Crafting the Soap you Deserve*

We saponify the richest organic sunflower, safflower and coconut oils with refined glacier mineral waters to create a luxurious soap base made even richer with pure Shea butter. This peerless emollient blend is then finely scented and enriched with pure essential oils (never perfume) and organic herbs and spices. Every bar is lovingly cured in its own special bin atop a high desert mountain mesa for at least 30 days. When it is ready and only then, each bar is gently wrapped and ready to become a gift for your skin.

In short, the best from our hands to yours.
